

LYNCHBURG-CLAY STUDENT ATHLETE HANDBOOK

About this Handbook

This packet has been prepared with the intention of being a reference guide for regulations and existing rules in effect concerning the athletic policies and procedures of Lynchburg-Clay Schools. It is our hope that this booklet would contribute to a better understanding of policies and procedures that will enable all those involved to work together within the athletic program.

It is our wish that this handbook will be helpful to those for whom it is intended. Obviously in the future certain policies and regulations may change. We also welcome any ideas or suggestions that would be meant to improve the athletic program.

Section I: Vision Statement and Goals of the Lynchburg-Clay Athletic Department

A. Vision Statement of the Lynchburg-Clay School District

The Lynchburg-Clay Schools will be places where all strive for educational excellence. We envision our students to be lifelong learners who obtain the skills necessary to be productive citizens.

B. Goals of the Lynchburg-Clay Athletic Department

In correspondence with the vision of the Lynchburg-Clay School District, the Athletic Department believes that participation in athletics improves the opportunity to become productive citizens. Through lessons on teamwork, goal setting, and individual responsibility, participation in athletics allows student-athletes to grow mentally, morally, physically, and emotionally.

C. Philosophy of the Lynchburg-Clay Athletic Department

The most important goal of the Lynchburg-Clay Athletic Department is to provide every participant the opportunity to grow mentally, morally, physically, and emotionally. To assure that the program can provide these opportunities, a degree of self-discipline is required of each participant. Self-discipline involves compliance with rules and regulations concerning personal behavior.

Rules promote order and safety, and assist participants to reach maximum performance potential. Every participant should adhere to the rules of the school, and conduct himself or herself as a “good citizen” of that school and the community at all times. Dedication and personal sacrifice by each participant promotes a sense of group unity and common goals.

Compliance with the rules can help each participant learn values that carry beyond the extracurricular program and into daily living.

It must also be remembered that participation in extracurricular programs is not a right, but a privilege that may be regulated. Therefore, all students who participate in interscholastic athletics or other extracurricular program activities at anytime, must meet the following regulations from date of enrollment or date of participation, whichever comes first. Failure to comply with the regulations could jeopardize a student's participation in the Lynchburg-Clay Athletic Program.

The Parent's Pledge

Cooperation among coaches, athletes, parents, and school personnel is essential if students are to realize the values of athletic participation. Like coaches and athletes, parents must make commitments to the athletic program to assure such cooperation. We ask that you read the following Pledge and, as needed, discuss your reactions with your son's/daughter's coach or with the Athletic Director. Thanks for your help.

As parents of an athlete at Lynchburg-Clay High School, I promise:

- To work closely with all school personnel to assure an appropriate academic as well as athletic experience for my son/daughter while he or she is in high school.
- To assure, to the best of my ability, that my child will attend all scheduled practices and athletic contest.
- To require my child to abide by the athletic department's training rules.
- To acknowledge, and not hinder, the ultimate authority of the coach to determine strategy and player selection.
- To promote mature behavior in students and parents during athletic contests.
- To work cooperatively with other parents and school personnel to assure a wholesome and successful athletic program for our school.
- To work closely with coaches and other school personnel to identify a reasonable and realistic future for my child as a student athlete, both in high school and in college.

I have viewed the Ohio High School Athletic Association Pre-Season Power Point Presentation. I have also been informed on how to spot concussion symptoms, handle concussions, and return to play protocols involving concussions.
